

BAKER'S COCOA

has great food value

THE food value of cocoa has been proven by centuries of use, and dietitians and physicians the world over are enthusiastic in their endorsements of it. It is said to contain more nourishment than beef, in a more readily assimilated form. The choice, however, should be a high-grade cocoa—"Baker's" of course.

It is delicious, too

HANDBOOK OF SPY SYSTEM

Official German Document
One of Most Remarkable
Taken in War.

FOUND IN A SAFE

Interesting Chapter Summarizes Method of Gaining Shipping News.

(Correspondence of the Associated Press)—An official handbook of German espionage, one of the most remarkable documents of the war, was produced as evidence in the course of the great Bergen spy case, which has just been ended in the courts with the conviction of six of the defendants.

The handbook was found in the safe of Herr Paasche, one of the employees of the so-called German information agency. Its title page bears the inscription "Duties of the Espionage Service," and it contains, in the words of the court, "the objects and methods of the German information agency in Scandinavia."

The introduction says that important information can be obtained through the neutral or enemy ships which come to Scandinavian ports, regarding such points as minefields, minebells, changes in lightships, etc. "By such information," it explains, "our U-boats can be shown not only safe routes, but also objects of attack."

The following is a summary of one chapter: "Through shipping only can we get to know the enemy's guardships where his ships are stationed, knowledge of his cruisers and other information.

THIS CLOCK HAS A NURSEMAID.

New York has produced the latest thing in nursemaids—a husky man who gets \$40 a week for tending to the hands of one "dummy" clock. The clock plays what might be termed the principal role in a new play called "Yes or No." The woman holding the hands of the clock in this picture is Marjorie Wood, one of the principals. The

action of the play depends on the clock to a great extent. Directly behind this clock, and, of course, behind the scenes, stands the "nursemaid," who operates hands on a dial corresponding to this one. His duty is to see that the hands in front register the exact time that the action of the piece calls for.

The best source is a ship captain, but they are difficult to obtain. The younger mates are easier to get as their wages are not high. But if neither of these is available, the most likely person on a ship should be approached. Monthly payment of 50 to 500 kroner is available. Captains on English passenger routes are usually paid 300 kroner. Mates on neutral tramp steamers between England and France, 100 to 125 kroner.

Passengers Questioned. "Much information can be gained from passengers also," says the handbook. The importance is shown of maintaining a good connection with representatives of the neutral press.

The hiring of commercial or other persons who travel in the enemy's country is suggested. "The best persons," says the handbook, "are commercial travelers who have been accustomed to travel for some firm, and who carry on an actual and continuous business. Just now also waiters, barbers, metalworkers for shipyards and ammunition factories, and nurses are much sought after in England. Women are especially recommended as good agents for obvious reasons."

The greatest danger is said to be in the sending of information. "But this," says the writer of the handbook, "is reduced to a minimum by our chemical agents in Germany who have taken special interest in this, and have prepared means, which, owing to the inferiority of the enemy's chemical knowledge, he is unable to detect. The materials are given to agents in a form which attracts no attention."

One of these methods illustrated in the course of the trial was by means of handkerchiefs, on which the information was conveyed by means of invisible ink.

"Big Bill" Hart at the Cozy today.

PHYSICAL EDUCATION SOCIETY TO MEET

SALT LAKE, Feb. 2.—The Utah Physical Education society will hold its regular monthly meeting this afternoon at 1 o'clock in the Deseret gymnasium.

The principal speakers will be Charles Allen, secretary of the committee on training camp activities, and J. F. Grey, physical director of the army Y. M. C. A. at Fort Douglas.

Several committee reports will be presented, among them those on playground activities by J. F. Griffiths of the university, on gymnastics by E. L. Roberts of the B. Y. U., on current events by G. A. Ryngaert of the L. D. S., on health education by Miss Heilmann of the "U," and on athletics by Homer Christensen of Bingham.

U. S. FORCES TO USE OWN WIRES

Entire Army to Have Correct Time Flashed to Them Over Own Telegraph System.

WITH THE AMERICAN ARMY IN FRANCE, Jan. 25.—(Correspondence of the Associated Press)—Correct time soon will be transmitted to the entire American expeditionary force over its own system of telegraph lines. At present wireless stations each day at a certain hour pick from the air figures flashed from Paris by which the clocks of the army are synchronized. This method does not insure absolute accuracy.

When the last links of the telegraph system are connected, each day at 11 o'clock a simultaneous signal will be sent to every station so that through the existing zone and, later on, at the front as well, clocks and watches will show the same time. This synchronization is desirable under present conditions and it is an absolute necessity with troops at the front when, for instance, orders may specify that some operation is to be carried out at one point at a certain time and another operation at another point at another time. The success of both operations may depend upon them being launched virtually on the second.

Miles upon miles of telegraph lines strung on poles labeled "U. S. A." now stretch through France. They may be found running to base ports, zigzagging through the instruction zone over hills through a valley, along a roadside. On some of the poles there are double cross-arms supporting in many cases as many as ten wires. There is a complete system of operators and central exchanges as well as a considerable force of linemen and repairmen quite a number of whom worked for telephone and telegraph companies in the United States before the war. The "service" leaves little if anything to be desired.

BERRY POSITIVE OF 1918 PENNANT

SAN FRANCISCO, Feb. 1.—While other folks are busy selling the Seals and worrying about Ben Berry's financial condition, Ben himself is all serene and comes right out in meeting and says that San Francisco will have as good a ball club this year as it had last year.

As the Seals won the flag last season, Ben's statement listens fair. He says he can step right out and get the men he needs in twenty-four hours, so he is not going to worry about the matter a bit. He does admit that Frank Navin of the Detroit club has written him, saying he is hard up for players himself and cannot spare any to the Seals.

Ben denies that he was after Ty Cobb, but he could use a few men like Erickson, Maisei, Baker, Oldham and McKee, whom he got from Detroit last spring.

Ben says he needs a couple of pitchers, one good catcher and a couple of outfielders and he will be ready to go. He figures that Koerner, Downs, Corhan and Pick will man his infield again and Herb Hunter will be back to do utility roles if he is not drafted.

Calvo will be back for one of the outfield jobs and Ben must find men to take the places of Schaller and Fitzgerald and Maisei. Ben does not believe that Schaller will quit the game, but he is going ahead as if he did believe it and he is not counting on Biff coming back.

Fitzgerald belongs to Philadelphia, whether he reports or not, so Ben is not figuring on him at all. "Let 'em all worry," said Ben. "The Seals will be there with a good club when the season starts. I'll tell the world so."

"Farmer" Dick Egan, who came to town yesterday to transact some business that brought him down from his

AUCTION SALE HORSES and MULES

OPENING of The SEASON SALE

Feb. 11-12-13, 1918 Ogden, Utah

Our opening sale of 1918 will be held at our new Sale Yards and Pavilion in the Union Stock Yards, Ogden, on the above dates, and a large number of horses and mules are waiting to enter the ring.

No better lot of Mares and Geldings has ever been sold in this market than will be seen in the ring at this sale.

These are big boned, sound and fat, many of the mares with foal, and are just the kind that are in good demand for the spring sales and for individual use. They have been on feed for from three to four months and are all in perfect condition.

We are also going to sell at the coming sale a lot of Eastern Chunks weighing from 1200 pounds to the biggest horse that grows. A limited number of good work mules, and a few choice Cotton Mules, many of them broke and all good bargains; a few loads of the Southern type, all good specimens of that particular class.

We are pleased to be able to inform all patrons of this and all subsequent sales to be held by us in this Greatest and Best Market in the West that no one need fear sickness among stock handled by and sold in these yards, for in this exceptionally healthful and invigorating climate there is no such thing as illness among horses or mules that have been here for any considerable time.

To the uninformed we may also state that Ogden has the best railroad connections and facilities to be found West of the Mississippi—has connections with Everywhere and a train service unequalled in the West.

NO REJECTS

After the closing of the last Government inspection we disposed of every reject, cleaned the yards of every one and have accepted nor bought any since, hence not one horse or mule will be sold at this sale which has ever been inspected or examined by any commission or inspecting official. ALL BRAND NEW.

IF YOU WANT TO BUY OR SELL HORSES OR MULES IT WILL BE VERY MUCH TO YOUR ADVANTAGE AND INTEREST TO ATTEND THIS SALE, AND TO BE HERE AT THE OPENING MONDAY MORNING, FEBRUARY 11, FOR THE GOOD BARGAINS BEGIN TO RUN AT THE SOUND OF THE OPENING GONG.

All stock from outside points should arrive here at least two full days before the opening of the sale in order that they may be in good condition to enter the ring.

If further particulars are desired, write or wire us and same will be gladly furnished at once.

OGDEN HORSE SALE & COMMISSION CO.

OTTO MEEK, Manager.

St. Helena ranch, was all smiles today. It was the rain that brought the gladness into his face.

"Another two weeks of this dry spell," he remarked, "and I'd say yes, if you asked me about going back to baseball, but now there is no chance. I am good for the ranch, and glad of it."

SUBSTITUTES FOR FOOD VERY POOR

Storm of Warning to Germany Sent Out by Their Scientists.

AMSTERDAM, Jan. 29.—(Correspondence of the Associated Press).—The almost complete lack of nourishment in many of the food "substitutes" now being sold in Germany is arousing a storm of warning from German scientists, who declare that government supervision of the whole substitute food traffic is an immediate necessity. Professor Luckenbach of the University of Berlin, writing in the *Vossische Zeitung*, says:

"It is useless any longer to hide the truth. Unless the government actively intervenes to put some control over the substitute foods with which we are overwhelmed, the end of the war will also see the end of a third of Germany's population. Moreover, the remaining two-thirds will be so enfeebled from malnutrition that they will be unable to perform the immense tasks of recuperation and restoration."

"The devil alone knows what are the ingredients of thousands of these wretched substitutes that already do duty for butter and eggs, oil and milk, flour and spirits, meat and broth, coffee and sugar, tobacco and tea, fish and sausage, cheese and caviar, and so on without end."

"The latest products of the ingenious substitute-mongers are really too terrible to be tolerated. A preparation of crude kerosene is now being largely sold as frying oil, and 800 cases of serious illness together with nine deaths have been traced to its use in Berlin alone. A preparation called 'goose dripping' is prepared from dog's fat, egg substitute form a mixture of chalk and baking powder; catfish from fish scales, and bread from straw. What people, no matter how patriotic, can hold out on such fare?"

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address E. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

NEWEST OVERCOAT IS MUCH WARMER

And why not an overcoat like this? It surely protects the soldier's knees and legs better than the flapping tails of the usual overcoat, and it would probably be less of a handicap to the soldier when he has to "move fast." A firm making soldiers' uniforms is showing it.

MILLER HUGGINS ON JOB AT NEW YORK

NEW YORK, Feb. 1.—Miller Huggins, manager of the Yankees, arrived here today. A long conference followed with Colonel Ruppert concerning the "spring training trip," but it is believed that matters of great importance were discussed between the owner of the club and his manager.

Huggins would not talk of a new deal pending with the Detroit Tigers, but this fact is known to indicate that the rumor is a well-known one.

SCISSORING 'EM AGAIN.

SIoux CITY, Ia., Feb. 1.—Joe Stecher, Nebraska mat champion, won in straight falls over Otto Preberg, Swedish champion, in their match here tonight. It took the Nebraskan 62 minutes to win the first fall. He took the next in 2 minutes. Both were scissor holds.

PENN ROWING SCHEDULE.

PHILADELPHIA, Feb. 1.—The 1918 rowing schedule of the University of Pennsylvania was announced tonight as follows: April 20, Navy at Annap-

olis; 27, Columbia at Philadelphia; May 4, open; 11, Yale at New Haven; 18, open; 23, Columbia, Princeton and Pennsylvania race for the Childs' cup at either Philadelphia or Princeton.

TRACKS WILL PAY

STATE \$250,000 YEAR

FRANKFORT, Ky., Feb. 1.—Kentucky race tracks will pay the state more than \$250,000 a year if the license track bill introduced in the legislature become effective.

The bill also will deny the tracks the "split" which has been taken from the pari-mutuel machines and which accrues from odd cents from one to nine in calculating the winnings of the wagers.

CARD TREASURER RESIGNS.

ST. LOUIS, Feb. 1.—Herman Seekamp resigned today as treasurer of the St. Louis Nationals. Hiram W. Mason was named to succeed Seekamp.

ABRAHAM LINCOLN said:

"I will study and get ready and sometime my chance will come."

Born in the woods, in the poverty of a log cabin, Abraham Lincoln had little chance to get an education. But he was so determined to succeed that he of what slender advantages he had once he walked forty miles to borrow a book; he used every spare moment for study; his chance did come and he was ready!

Some day you'll be considered for a good job ahead. Get ready, and you'll surely go up! You have ten chances for every one that Lincoln had. The International Correspondence Schools will train you, right at home in spare time, for a better job, more pay, for the big chance when it comes. Make your start now. Mark and mail the coupon and find out how.
